

Probiotic G.I.

Shelf-stable; supports G.I. barrier function[‡]

INDICATIONS

- Ages 18 and up
- Healthy gastrointestinal barrier function and immune support[‡]

BENEFITS

- Promotes healthy immune balance within the G.I. tract[‡]
- Helps maintain the integrity of the intestinal mucosa[‡]

FEATURES

- Shelf-stable probiotic blend
- Provides 10 billion CFU per capsule
- Made with high-quality vegetarian ingredients backed by verifiable science

VERIFIABLE SCIENCE

Probiotic G.I. provides 10 billion CFU per capsule of the beneficial bacteria *Lactobacillus acidophilus*, *Lactobacillus salivarius*, *Lactobacillus casei*, *Bifidobacterium bifidum*, *Bifidobacterium lactis* and *Streptococcus thermophilus*. Beneficial microflora are crucial for proper gut-associated lymphoid tissue (GALT) function and development.¹ The GALT helps protect intestinal mucosa from allergens and toxins and is a major component of the body's immune system.² It is estimated that more than 70% of the body's B lymphocytes are found in the GALT. Probiotics are believed to support healthy GALT composition, and in turn, support barrier function, G.I. epithelial cell health and T cell function within the G.I. tract.³ Some probiotic strains may also modulate local production of cytokines and other immune mediators in the G.I. epithelium.⁴ Research suggests that *Lactobacillus salivarius* (Ls-33), *Bifidobacterium lactis* (BI-04) and *Streptococcus thermophilus* St-21 help to maintain healthy immune mediator balance.^{5-7‡}

SUGGESTED USE

As a dietary supplement, take 1 capsule, 1-2 times daily, with or between meals.

STORAGE

Store in a cool, dry place.

WARNING

Probiotics may be contraindicated for immunocompromised individuals. If you are pregnant or lactating, have any health condition or are

immunocompromised, or are taking any medication, consult your health professional before use.

SOURCE

- *Lactobacillus acidophilus* (La-14), *Bifidobacterium lactis* (BI-04) and *Bifidobacterium bifidum* (Bb-06), *Lactobacillus casei* (Lc-11), *Streptococcus thermophilus* (St-21) and *Lactobacillus salivarius* (Ls-33) are grown on a dairy and soy-free medium
- Ascorbyl palmitate is derived from corn dextrose fermentation and palm oil
- Pure Encapsulations® probiotic products contain a unique form of rice starch produced through a natural enzymatic process. This proprietary starch has been extensively tested and is added to protect the viability of the probiotic organisms

NOTES

Size 0 caps

Bottle count 60

Order code PGI6

Bottle size 120 cc

SUPPLEMENT FACTS

Probiotic G.I.

Shelf-stable; supports G.I. barrier function[‡]

1 capsule, 1-2 times daily, with or between meals.

Each (size 0) vegetarian capsule contains:

Probiotic blend 10 billion CFU

Providing:

Bifidobacterium lactis (BI-04)

Lactobacillus acidophilus (La-14)

Lactobacillus salivarius (Ls-33)

Lactobacillus casei (Lc-11)

Streptococcus thermophilus (St-21)

Bifidobacterium bifidum (Bb-06)

Other ingredients: hypoallergenic plant fiber (cellulose), vegetarian capsule (cellulose, water)

Refrigeration may prolong product viability.
